Profile

I am a senior full-stack web developer with over 8 years of experience.

I have been involved in a variety of projects including website development, e-commerce sites, and web applications. I am passionate about creating engaging and functional online experiences. I love turning ideas into reality through coding and design. With expertise in web technologies and best practices, I am committed to delivering high-quality, user-friendly websites and web applications.

Throughout my career, I have worked with clients across a variety of industries, working closely to understand their needs and provide tailored solutions. I believe that effective communication is the key to web development, and I strive to ensure customer satisfaction by maintaining clear and prompt communication with my clients.

Career

Front-end developer

06/2016 -
10/2018

- Built extensive test coverage for all new features, reducing the number of customer complaints by 10%.
